

TURNSTAR

RELIABLE ★ DURABLE ★ GUARANTEED

PORTABLE ACCESS CONTROL

MOBILE TURNSTILE SOLUTION

Turnstar custom designs and builds refurbished shipping containers to suit your security needs, providing you with an on-the-go physical access control solution.

- Rapid security deployment
- Implement physical access control within hours

PICK UP AND GO

Your container offers great flexibility and can be easily moved from one location to another.

SAVE CASH

No need for building plans, approvals, laying of foundations and construction. Your costs per square metre will be substantially lower than building from scratch.

DURABILITY

Repurposed containers are robust and are ideal for integration with a security perimeter or fence.

Each 20-foot (6 metre) or 40-foot (12 metre) refurbished container can be designed to incorporate a number of Turnstar turnstiles and wheelchair gates together with a combination of the following optional features and extras:

- Employee breathalyser and search areas
- Bullet-resistant windows and walling
- Ablutions and showers
- Security office air-conditioning units
- Windows with burglar bars for ventilation
- Desk and furniture for security guard to carry out his duties
- Night time lighting
- Lockers
- Roller shutter doors and gas assisted lifted entrance walls
- Steel doors with heavy-duty lock set
- Electrics for any requirement
- Any other requirement which you may need

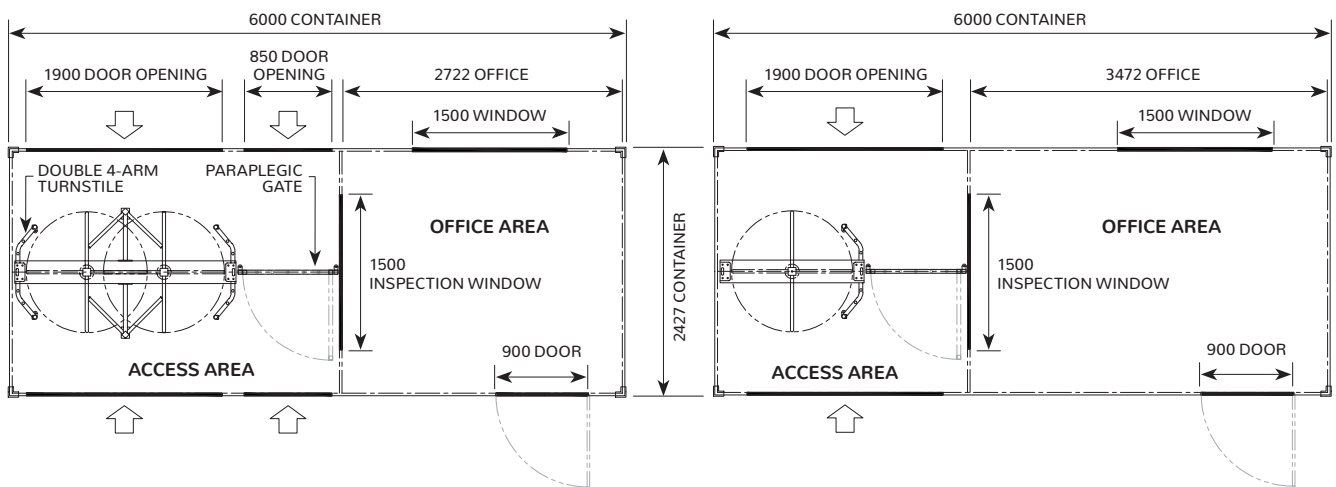

The flexibility of add-on elements means that the containerised units can be used as surveillance camera rooms, security control rooms, computer/server rooms and security guardrooms.
